

## Hay and Silage Wrap Recycling Pilot Program

### What can I recycle?

#### Green Silage Wrap Liners:

Use green liners for recycling silage wrap, grain tubers and pit covers.

- One liner will hold around 16—20 round bale silage wraps
- Silage pit covers and grain tubes can be recycled in these
- Bale net cannot be recycled and cannot be included in the liner
- Plastic cores cannot be recycled

#### Red Silage Wrap Liners:

Use red liners for recycling bailing twine.

- One liner will hold twine from 70 big square bales
- Liners must be tied off with cable ties or bailing twine before being placed in the drop-off bin
- Bale net cannot be recycled and cannot be included in the liner.

Interested participants can collect plastic disposal liners from the Holbrook Landcare Network office. Contact us on (02) 6036 3181 for more information or to register
