

Feed, Sell or Agist?

Dry Season Strategies

- Selling stock - should I sell, and if so, which stock?
- Is feeding worth it? Accurately calculate costs of different feed options
- Livestock nutritional requirements during dry seasons
- Grain size - what are the effects on nutrition?
- Strategies to reduce the impact of dry seasons (such as early weaning)
- What tools are available to help make better decisions?
- Identifying decision points for decision making
- Toxicity risks during dry seasons

When & where:

- Tooma Community Hall, 3rd Feb. 7:30 am to 14:00 pm (Breakfast & lunch provided)
