

# On-Ground Work Application 2017-18

<b>Name of landowner:</b>  Contact Address:	Contact phone: Contact mobile:  contact email:
---	---

Location of Works:

Property:	Property Address:
Lot and DP of works site (if known)	

<b>Contact details (if different from landowner)</b>	<b>same as landowner</b>
Name:	manager / leasee / other
Postal Address:	Contact phones: contact email:

<b>Grant recipient</b>	GST registered?    Y / N
Business name:	ABN:
Contact address:	Contact phone: Contact mobile: contact email:

Describe your project/s:

Total ha of site		Total ha revegetation required	
------------------	--	--------------------------------	--

Km fencing required

**Revegetation requirements** (HLN can help to calculate this)

Direct Seeding ha		tubestock ha		Total no. plants	
		plants per ha rate		contract planting ?	

# Project Costing Form 2017/18

As part of your application you need to submit an estimate of the cost of your project fencing materials. Note that there can be several projects running at any one time and they may have different funding rules, so you may not be offered the full amount.

**Part One: Fencing materials estimate** will be used to determine the rebate amount in your management agreement.

**Part Two : Total project costing estimates** is to help you budget your project, and to determine the total value of the project so we can report to the Australian Government the value that landholders are contributing to environmental work. This will also help to show the value for money the funders are getting for their investment and helps us in applying for more grants.

For equity we are asking you to cost your labour at \$30/hr GST excl

## PART ONE: FENCING MATERIALS ESTIMATE

Please indicate whether  GST Inclusive  GST exclusive

Components of Fence eligible to be claimed

	no.	cost per unit	TOTAL
Steel Posts (star pickets)			
Strainers/Stays			
Plain Wire			
<i>Barbed Wire*</i>			
Netting (Ringlock/ Hingejoint)			
Gates and Fittings			
Insulators			
Insulated Cable			
Energisers			
Tie Wire			
Tie Downs			
Creek crossing materials			
Other (may or may not be eligible for rebate, depend- ing on the program)  Eg. Watering points			
<b>TOTAL MATERIALS COST FOR FENCE</b>			

\* Not recommended for use

1

The Carbon plantings in Slopes to Summit to improve connectivity and habitat gaps is supported through funding from the Australian

## PART TWO: TOTAL PROJECT COSTING ESTIMATES

The purpose of this costing is to help you budget your project, and to determine the total value of the project so we can report to the Australian Government the value landholders are contributing to environmental work.

*For equity we are asking you to cost your labour at \$30/hr GST excl*

ACTIVITY	DETAILS	Estimated cost
<b>Project Planning and site assessment</b>	completion of paperwork, chasing quotes <i>eg. Two 1 hr site visits with landcare, pegging fenceline 3 hrs, ringing around for quotes 1hr = 6hr @ \$30/hr</i>	<i>eg. \$180</i>
Other		
Other		
<b>Project implementation</b>		
Preparation of the fenceline	Labour	
	Machinery	
Construct new fence	Labour

	Site prep pest animal control - materials	
	Ripping - plant	
	Ripping - labour	
	Planting (if not included in project)	
	other	
<b>Other costs specific to establishing your project</b>		
<b>TOTAL IN KIND CONTRIBUTION</b>		

I have:

	understood that the project may be assessed against criteria from multiple projects and that HLN has made the available project guidelines accessible to you ( <a href="http://www.holbrooklandcare.org.au">www.holbrooklandcare.org.au</a> )
	understood including the requirements for 10 year management agreements with HLN over the site
	read and understood HLN provided "WHS Factsheet", and understand that I have responsibility to ensure the work, health and safety of all people affected by the project
	attached my project costings
	attached the map showing my proposed project (as provided by HLN)
	understand that I could be made a funding offer based on this information
